## NATIONAL PHOTOGRAPHY DAY

National Photography Day, celebrated on August 19, honors the photographer who works to offer us images from around the world. The first World Photography Day was held in 2010 when 270 photographers uploaded their images to an internet collection. On August 19th, post your own photo; or a photo from your favorite photographer and acknowledge him/her, on your social media. Use the hashtag #NationalPhotographyDay. Photographs allow us to share our experiences with others. And maybe an author shouldn't say this, but a picture is worth a thousand words!

**Look! You're Dancing** was chosen by the **Australian Dog Lover Magazine** as one of their July 2022 book club picks. **Pairing Paws: Dog Breeds and their Spirit Wines** by Michele Gargiulo was also featured. Michele is a sommelier in Philadelphia, PA and I've contacted her about doing a joint promotion of our books. I'll be doing a reading at the Read & Sip event on Saturday, August 13th at Saude Creek Vineyards. The event runs from noon till 5. The Church Hill Book Club has also picked **Look! You're Dancing** as a special August book club selection. Coheed is invited to this one and we may show them a few dog dancing moves. If

you have a book club, service organization or dog training club that would be interested in having me come as a speaker, please let me know so we can get it on the calendar. I can do a reading from the book, answer your questions about dog dancing, or explain my writing process—or all the above.

As a bonus for August's newsletter and in honor of National Photography Day, I'm including a colorized photo of Joe Harris, the Moon done by Keith Williams. I think it makes him look so real--as if he could begin talking to you at any moment! If you enjoy this photo, let me know by dropping me an email [joycemiller1959@gmail.com](mailto:joycemiller1959@gmail.com). I'd love to hear from you!

I live in the Church Hill section of Richmond, VA with my husband and my retired racing greyhound. Before I started writing, I worked for 30 years at a nuclear physics research laboratory.

Do what you came here for!
